PROFESSIONAL EXPERIENCE

Park Community Credit Union

Summer 2013 – Present

Web Development

This is my second position at Park and it encompasses both my original .NET position and the web developer position as it was vacated unexpectedly by our long-time Web Programmer. This position includes running and coding improvements/fixes to MCW, our online banking platform as well as our corporate WordPress site. It also includes internal web applications such as our Intranet, MVP, my own version of Account Cross Sell which is used throughout the Credit Union and many other programs.

- Our corporate website can be found at www.parkcommunity.com
 - A demonstration created for members of our new online banking (coming soon) can be found at www.parkcommunity.com/online_banking_demo
-

Park Community Federal Credit Union

Summer 2012-Summer 2013

.NET Programmer/Analyst

Responsible for internal .NET programs such as Windows Services, internal .NET programs and common duties associated with the Programmer/Analyst position. This position includes day to day IT operations, running complex reports, project management with our vendors, and in-house programs, some examples of my own programs are: MVP xSell tracking system, Mortgage Referral Priority System, an ADP compatible Upsell Report & Incentive Generator, FICS mortgage display automation, and more.

JJ Fast Publishing (Contracted)

February 2011 – July 2011

WordCrusher

This program was developed by myself using C# and VSTO within a 6 month timeframe. The program is capable of turning any Word Document into a Kindle .mobi file in under a minute. It capable of including images, links, styling choices and more. It is also capable of setting your document up for create-space printing. This program was completed in the summer of 2011 and I still collect royalties from it.

A 30-second test video is available on my website at www.cdrady.com

LeftLaneDrivers.org

January 2011

Web Development

- Recreated a table-based website with modern DIV/CSS dynamic design
 - This was one of many Elance freelance jobs. (only one listed)
-

The DollClothesShop.com

Summer 2008-Present

Web Developer/Designer

- Developed and designed this online commerce site originally for my mother who opened it in 2006 and needed a new platform.
- Continually updated the back-end (ZEN Cart on a Linux server using MySQL and PHP) for security purposes
- Updated and took over ownership of the store in 2014
- Updated to avoid the SSL 3.0 problems in 2014
- Still running the store in 2015 with my wife.
